---

## Summary

---

FullStack focused on **Front-End** development with **more than 5 years of experience**, with expertise in **React and Next.js**. Demonstrated success in delivering scalable front-end applications and enhancing UI performance. Strong background in optimizing development processes and implementing efficient front-end solutions.

## Experience

---

### JalaSoft | Remote

Full Stack Engineer | 05/2023 - 12/2025

Stock Market Dashboard – Administrative Platform (Next.js)

**Tools & Technologies:** Next.js 13+, React, TypeScript, Material UI, GraphQL, Python (FastAPI), PostgreSQL

#### Responsibilities & Achievements:

- **Built a scalable, admin-facing dashboard** for stock market management with SSR, SSG, and dynamic routing.
- **Designed and implemented modular UI components** using Material UI and internal design systems.
- **Integrated GraphQL APIs and Python backend** for real-time data visualization and reporting.
- **Enhanced system reliability and performance** through caching strategies, code splitting, and observability tools.

### JalaSoft | Remote

Full Stack Developer | 01/2021 - 04/2023

Shop Your Way – Mobile App (React Native)

**Tools & Technologies:** React Native, TypeScript, Redux, Firebase, REST APIs

#### Responsibilities & Achievements:

- **Developed a high-traffic coupon app** for iOS and Android, delivering smooth and responsive mobile experiences.
- **Implemented user authentication, push notifications, and in-app purchases** to enhance user engagement.
- **Optimized performance** using code splitting, lazy loading, and efficient state management.
- **Collaborated with designers** to ensure pixel-perfect UI/UX and maintain brand consistency.

### JalaSoft | Remote

Full Stack Developer | 02/2020 - 01/2021

Marketing Landing Page (React + Astro)

**Tools & Technologies:** React, Astro, Tailwind CSS, CSS Modules, Vite

#### Responsibilities & Achievements:

- **Developed a fast, SEO-friendly landing page** to promote product features and drive conversions.
- **Built reusable UI components** with React and Tailwind CSS for consistent design across pages.
- **Implemented responsive layouts** and optimized for accessibility and cross-browser compatibility.
- **Improved loading speed and performance** using Astro's static site generation and CSS module optimization.

### Agetic | La Paz Bolivia

Full Stack Web Developer | 02/2019 - 12/2019

- Developed and maintained government web applications using **Vue.js**, with a strong focus on **usability, accessibility, and maintainable front-end architecture**.
- Integrated front-end applications with REST APIs, ensuring secure and standardized data consumption.
- Contributed to the **modernization of national digital services**, improving **user experience, interface consistency, and accessibility**.
- Collaborated with cross-agency teams to deliver **robust front-end integrations**, supporting interoperability and seamless data exchange.

## Skills

---

Next.js development, REST API design, Node.js backend, TypeScript proficiency, TailwindCSS framework, Astro framework, Real-time communication with Socket.IO, ReactJS, ReactNative, CSS3, Material UI, StoryBook

## Education

---

**UMSA | La Paz**

**Computer Science | 02/2015**

Bachelor's Degree in Computer Science

**Centro Boliviano Americano | La Paz**

**English as a Second Language | 09/2015**

Proficiency in English, C1
